our learning

Reading

Students have been learning to infer by looking at picture and trying to determine what happened before and after. This week students will begin to talk about the information that they learned from non-fiction texts with their partners. In phonics we will learn about the CH diagraph.

Math

This week students will be working on balancing equations. Students will explore the concept of true and false. Additionally they will review facts within 20. Students have been taking fact assessments. I am so proud of how fluent they are in addition. Also, they are such strong math thinkers and they really can explain their math understandings!

Religion

Students will be creating Get Well cards for the sick and homebound members of our parish.

Writing

Many students are writing their second and third teaching books. This week we will be creating goals to help us write stronger non-fiction texts. Additionally students will work on their editing and revision skills this week...

Science

Students have discovered that waves require energy to move. They have learned that sound and light waves travel at different speeds.

homework

- Monday: Math page 301 (no #3) and 302 (no #3 or #4)
- Tuesday: Math page 307 (no #8) and 308
