W

Ashlyn's Birthday

Jeevan's Birthday

R

F

Movie Day

our learning

Reading

Students will work on fluency and comprehension skills. We are reading *Zelda and Ivy*, a chapter book by Laura McGee Kvasnosky. In phonics we will review long vowels. This week in centers, we are starting a new activity-phonics exercises!

Math

Students will take Chapter 8 assessment on Tuesday and Wednesday. We will begin Chapter 9-Measurement later this week. Students will learn measurement comparisons. They will order items by length and then determine the relative size of objects using comparisons.

Religion

Students really enjoyed making cards for the sick and homebound of our parish. This week we will be learning how Jesus shows his love for us.

Writing

Students will begin to write a review of a place in the community that they enjoy going to. Students are going to learn to write catchy introductions and conclusions. Students will begin to revise and edit their stories for publishing.

Social Studies/Science

Students will learn about being smart consumers. We will begin our science unit on Space. Students will be going to the planetarium on May 1st.

Happy Birthday Noah 4/6 homework

- Monday: Math Review Sheet
- Thursday: Math page 517 and 518
