**FROM THE DESK OF FATHER JONATHAN**

**December 23, 2018**

“And the Word became flesh.....and dwelt among us.” We get used to hearing this as we prepare for Christmas, and it almost sounds normal! But God taking on our human flesh and walking and talking and eating and healing.....among us, is anything but normal.

The only explanation of why God would take on our humanity, despite the fact he knew he would be mistreated and even killed by us, is that he loves us so much that he would do ANYTHING for us.

Christmas morning is almost here!! This is the best time to meditate on the degree and intensity of God’s love for you and me. Knowing this love will change anyone’s life.

Merry Christmas!

God bless, Father Jonathan
