## Philosophy

Little Angels Learning Center is a unique early education program focused on the individual needs of the child that fosters developmental growth.

At Little Angels, we recognize the importance of the early years as the time for the most intellectual and physical development of a child. We will encourage each child to grow to

their fullest potential by providing meaningful learning experiences developmentally appropriate for the young child while fostering a positive self-image as well as a continuing love of learning.

Our classroom environment is warm and friendly. Our goals are early childhood learning, socialization skills and readiness skills.
