

Dear Parents,

Summer vacation is here! Kids deserve a break from the classroom, but not from learning. Research shows that most children lose 2-3 months of math learning over the summer. To avoid significant loss in knowledge and academic skills we have implemented a summer math program for students entering grades 2-5. 20-30 minutes a week (10-15 minutes 3-4 days a week) is all it takes for your child to strengthen his/her math skills and prepare for the year ahead. It is important that your child works very hard and to the best of his/her ability. We would like students to focus on basic math operations (addition, subtraction, multiplication and division). Below is a list of suggestions for websites and apps, worksheets of course are another great resource you can utilize!

Attached is a log to keep track of your minutes. Summer Math Log is due August 27, 2019.

Websites:

1. [www.mathfactcafe.com](http://www.mathfactcafe.com)
2. [www.funbrain.com/cashreg/index.html](http://www.funbrain.com/cashreg/index.html)
3. [www.aplusmath.com](http://www.aplusmath.com)
4. [www.factmonster.com](http://www.factmonster.com)
5. [www.prodigy.com](http://www.prodigy.com)
6. [www.sumdog.com](http://www.sumdog.com)
7. [khanacademy.org](http://khanacademy.org)

Apps:

1. Math Planet
2. Math Champ
3. Pet Bingo

Again, these are just suggestions and we would love to know about any other cool sites/apps you may come across this summer!

Have a blessed and wonderful summer, and we look forward to seeing you in August! 😊
