

PERKIOMEN VALLEY SCHOOL DISTRICT  
School Health Services

The Pennsylvania School Health Law requires a **medical** examination for students upon original entry to school including Kindergarten, First grade, and/or new to the PA school system, 6th grade, and 11th grade.

A **dental** examination is also required by Pennsylvania School Health Law for students upon original entry to school including Kindergarten, First grade, and/or new to PA school system, 3rd grade, and 7th grade.

These examinations should be completed by your child's primary care physician and dentist since these professionals can best evaluate your child's health.

The physical and dental examination **MUST BE DONE AFTER JULY 1** of the previous school year (**JULY 1, 2017**) and returned to the school nurse by the first week of school, otherwise your child will receive a physical or dental exam by the school physical and/or dentist.

It is important to note that Pennsylvania School Vaccination requirements have changed effective the 17-18 school year. Students are required to comply with these regulations within the first 5 days of being admitted to school or risk exclusion from school.

Additional forms for the physical and dental examination can be found on the district website, [www.pvsd.org](http://www.pvsd.org).
