### To Be Noted

The "pastoral plan" in choosing **Holy Angels and St. Ann** to remain open is a thoughtful and intelligent decision on the part of many in response to the changes in the church that we must acknowledge. Some are thinking that it would be "best to not support the church financially anymore because they are going to close all of them anyway." This thinking is wrong, bad and dangerous. Not only is what you contribute to the Church to maintain it physically appreciated and valued but absolutely critical to its future. To cease support or to not increase your support, or to forget supporting your church in these times will be the reason for its closure and a deep sorrow in light of what we all benefit from by having access to God through it. Think about it!
