Sacred Heart School Enrichment Program

Fall 2019

We Learn. We Build. We Play.

Bricks 4 Kidz after school programs will be coming to Sacred Heart. After a full day of learning comes one of those rare activities that makes math, technology and science come to life in a fun and meaningful way.

When you sign up your child for Bricks for Kidz after-school curriculum, he or she will build a different project each week out of LEGO Bricks. Each project begins with a lesson led by a teacher. Then they dive in with their partners and use their creativity and problem-solving skills to build their models, whether it's a machine, a building or some other structure.

Whatever the theme may be, each new project offers an opportunity to use their hands and minds to explore, solve problems and discover. They learn to cooperate and work with other children, all while picking up the fundamentals of things like architecture and engineering.

Best of all, these classes can reinforce what they are already learning in the classroom. When your child has a hands-on experience with a math or science concept, it comes to life and becomes real, reinforcing what they are doing in school. That will only set them up for continued success in the classroom. In the long run, they will gain the confidence they need to see problems as something that can be solved!

Course Information: Thursdays beginning September 19th

Time: 3:30 PM – 4:30 PM

Kidding Around Yoga With CC
Sacred Heart School
Afterschool Enrichment Program
Fall 2019

Kidding Around Yoga is focused on:

- *Movements and postures geared at integrating mind and body
- *Breathing techniques to relieve stress and sharpen focus
- *Mindfulness exercises aimed at improving attention

We dance, march, jog, skip and limbo while practicing traditional yoga poses, all while using our original music.

Namaste
