

PESTICIDES NOTICE

Schools are required to maintain a list of staff and persons in parental relationships who wish to receive 48 hour prior written notification of pesticide application at relevant facilities and procedures on how to register with the school to be on such a list for notification. This notice shall be made available at the beginning and end of each school year.

The Buildings and Grounds Department has not applied any pesticides at any of our facilities during the past school year.

If you would like to obtain information about products being applied, including warnings that appear on the labels of the pesticides used, or would like to be placed on our notification list, please contact Terry Feuka at smsoffice@twcny.rr.com or call 315-386-3572.

I wish to be notified prior to the use of pesticide application at St. Mary's School (if during the school year).
