The price of lunch is \$3.35

It is very important if your child orders lunch they do it 1<sup>st</sup> thing in the morning and when they come through the line they get what they ordered in the morning. It is costly and time consuming when last minute changes are made and there have been occasions when we have run out of food.

When money is sent in for your child's lunch account it should be clearly marked with your child's first and last name on it at the very least. Their grade and/or pin number is also helpful but last name is essential since there is more than one student with the same first name.

If you write a check it should be made payable to Pope John Paul II. If it is made out to anyone else it will be returned to you for a new check as the bank will not accept it and we cannot deposit it.

Snacks are priced from \$.50- \$2.00. They can be purchased with cash or paid for from your students lunch account.

The lunch account and snack account are one and the same. They are NOT separate accounts. If you send in \$16.75 for a week of lunches and your child buys lunch Monday and Tuesday plus snacks with his account he will have a negative account by Friday.

If your child has any food allergies or restrictions please send a signed note to me ASAP so that I can put an alert their account. This is also a great way for us to notate restrictions such as they can onlybuy snacks on Tuesday & Thursday, etc
