

FIRST GRADE SUMMER READING PROGRAM

Dear Parents of Incoming First Graders,

Welcome to first grade! We are so excited to meet you and begin a great year together!!

In order to fully prepare your child for the first grade, we have designed a special summer reading program. Your child is to read **four** age appropriate books (books you can read with your child or books your child can read with very little help) for **each summer month**.

After your child has finished this reading log, have your child pick his/her favorite book to complete the small "book report" we have provided. We will discuss and display these "book reports" during the first week school. The "book report" and this reading log need to be brought to school the first week.

*A list of suggested books is attached to help you and your child decide what to read.

We look forward to a wonderful school year!!

Happy Reading!!
