Counting and Cardinality	
Know number names and the count sequence. K.CC.1 Count to 100 by ones and by tens.	225–230, 231–236, 237–242
Know number names and the count sequence. K.CC.2 Count forward within 100 beginning from any given number other than 1 .	225–230, 231–236, 237–242
Know number names and the count sequence. K.CC.3 Write numerals from 0 to 20. Represent a number of objects with a written numeral 0-20 (with 0 representing a count of no objects).	17–22, 29–34, 35–40, 69–74, 75–80, 105–110, 125–130, 131–136, 145–150, 179–184, 185–190, 191–196, 197–202, 205–210, 211–216, 217–222, 225–230, 231–236, 237–242

STANDARDS	PAGE REFERENCES
<p>Count to tell the number of objects. K.CC.4 Understand the relationship between numbers and quantities; connect counting to cardinality using a variety of objects including pennies.</p> <p>a. When counting objects, establish a one-to-one relationship by saying the number names in the standard order, pairing each object with one and only one number name and each number name with one and only one object.</p> <p>b. Understand that the last number name said tells the number of objects counted and that the number of objects is the same regardless of the arrangement or the order in which counted.</p> <p>c. Understand that each successive number name refers to a quantity that is one larger.</p>	<p>11–16, 17–22, 23–28, 29–34, 69–74, 75–80, 93–98, 99–104, 105–110, 111–116, 119–124, 125–130, 131–136, 145–150, 179–184, 185–190, 191–196, 197, 205–210, 211–216–202, 205–210, 211–216, 217–222</p>
<p>Count to tell the number of objects. K.CC.5 Count to answer “how many?” questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1-20, count out that many objects.</p>	<p>11–16, 17–22, 23–28, 29–34, 35–40, 69–74, 75–80, 93–98, 99–104, 105–110, 111–116, 119–124, 125–130, 131–136, 179–184, 185–190, 191–196, 197–202, 205–210, 211–216, 217–222</p>
<p>Compare numbers. K.CC.6 Orally identify (without using inequality symbols) whether the number of objects in one group is greater/more than, less/fewer than, or the same as the number of objects in another group, not to exceed 10 objects in each group.</p>	<p>43–48, 49–54, 55–60, 61–66, 67–68, 137–142, 143–144</p>
<p>Compare numbers. K.CC.7 Compare (without using inequality symbols) two numbers between 0 and 10 when presented as written numerals.</p>	<p>61–66, 67–68, 137–142, 143–144</p>
Operations and Algebraic Thinking	
<p>Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from. K.OA.1 Represent addition and subtraction with objects, fingers, mental images, drawings, sounds such as claps, acting out situations, verbal explanations, expressions, or equations. Drawings need not show details, but should show the mathematics in the problem. (This applies wherever drawings are mentioned in the Standards.)</p>	<p>257–262, 263–268, 269–274, 275–280, 281–286, 289–294, 295–300, 301–306, 307–312, 325–330, 331–336, 339–344, 345–350, 351–356, 357–362, 383–388, 389–394, 397–402, 403–408, 409–414, 415–420</p>

STANDARDS	PAGE REFERENCES
<p>Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.</p> <p>K.OA.2 Solve addition and subtraction problems (written or oral), and add and subtract within 10 by using objects or drawings to represent the problem.</p>	325–330, 331–336, 339–344, 345–350, 351–356, 357–362, 383–388, 389–394, 397–402, 403–408, 409–414, 415–420
<p>Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.</p> <p>K.OA.3 Decompose numbers and record compositions for numbers less than or equal to 10 into pairs in more than one way by using objects and, when appropriate, drawings or equations.</p>	263–268, 275–280, 295–300, 307–312
<p>Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.</p> <p>K.OA.4 For any number from 1 to 9, find the number that makes 10 when added to the given number, e.g., by using objects or drawings, and record the answer with a drawing or, when appropriate, an equation.</p>	301–306, 363–368
<p>Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.</p> <p>K.OA.5 Fluently add and subtract within 5.</p>	339–344, 345–350, 351–356, 357–362, 397–402, 403–408, 409–414, 415–420
Numbers and Operations in Base Ten	
<p>Work with numbers 11–19 to gain foundations for place value.</p> <p>K.NBT.1 Compose and decompose numbers from 11 to 19 into a group of ten ones and some further ones by using objects and, when appropriate, drawings or equations; understand that these numbers are composed of a group of ten ones and one, two, three, four, five, six, seven, eight, or nine ones.</p>	443–448, 449–454, 455–460, 463–468, 469–474
Measurement and Data	
<p>Identify, describe, and compare measurable attributes.</p> <p>K.MD.1 Identify and describe measurable attributes (length, weight, and height) of a single object using vocabulary terms such as long/short, heavy/light, or tall/short.</p>	489–494, 495–500, 501–506, 509–514, 515–520, 521–526

STANDARDS	PAGE REFERENCES
<p>Describe and compare measurable attributes. K.MD.2 Directly compare two objects with a measurable attribute in common, to see which object has “more of”/“less of” the attribute, and describe the difference. For example, directly compare the heights of two children and describe, one child as taller/shorter.</p>	489–494, 495–500, 501–506, 509–514, 515–520, 521–526
<p>Classify objects and count the number of objects in each category. K.MD.3 Classify objects into given categories; count the numbers of objects in each category and sort the categories by count. <i>The number of objects in each category should be less than or equal to ten. Counting and sorting coins should be limited to pennies.</i></p>	551-556, 557-558, 559-564, 565-570, 571-574
Geometry	
<p>Identify and describe shapes (squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres). K.G.1 Describe objects in the environment using names of shapes, and describe the relative positions of these objects using terms such as above, below, beside, in front of, behind, and next to.</p>	583–588, 589–594, 597–602, 603–608, 655–660, 719–724
<p>Identify and describe shapes (squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres). K.G.2 Correctly name shapes regardless of their orientations or overall size.</p>	623–628, 629–634, 635–640, 641–646, 649–654, 655–660, 661–666, 667–672, 673–678, 693–698, 699–704, 713–718, 719–724
<p>Identify and describe shapes (squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres). K.G.3 Identify shapes as two-dimensional (lying in a plane, “flat”) or three-dimensional (“solid”).</p>	623–628, 629–634, 635–640, 641–646, 693–698, 699–704, 719–724

STANDARDS	PAGE REFERENCES
<p>Describe, compare, create, and compose shapes.</p> <p>K.G.4 Describe and compare two- or three-dimensional shapes, in different sizes and orientations, using informal language to describe their commonalities, differences, parts, and other attributes.</p>	<p>623–628, 629–634, 635–640, 641–646, 649–654, 693–698, 699–704, 705–710, 711–716, 719–724</p>
<p>Analyze, compare, create, and compose shapes.</p> <p>K.G.5 Model shapes in the world by building shapes from components, e.g., sticks and clay balls, and drawing shapes.</p>	<p>623–628, 629–634, 635–640, 641–646, 649–654, 655–660, 661–666, 667–672, 673–678, 719–724</p>
<p>Describe, compare, create, and compose shapes.</p> <p>K.G.6 Combine simple shapes to form larger shapes.</p>	<p>661–666, 667–672</p>
