

# SAINT KATERI TEKAKWITHA PATRONESS OF ECOLOGY

Nature drew her close to God and filled her with his love. Her love of God extended itself to all of his beautiful creation. She admired and respected all of God's loving creatures. She spent hours in the woods of Fonda, New York worshipping God immersed in the silence, tranquility and awesomeness of the forest where she lived. She made artful crosses and attached them to her favorite trees. After her day's work she returned to those crosses and trees to be one with her God.

Saint Kateri Tekakwitha, pray for us.

We at Saint Kateri Tekakwitha Church try to emulate her in concrete ways. We purchase paper goods rather than less expensive foam and make use of metal utensils rather than throw-away plastic utensils.

For parish functions we seek biodegradable goods and/or reusable goods whenever possible.

We have tried to harness the great amount of wind on our property but due to factors out of our control we have not been able to erect turbines on our property.

Presently we are trying, with much difficulty, to erect solar panels on our church grounds.

We work hard to manage the 8 garden areas and to keep our trees in good condition.

We compost, recycle and encourage all parishioners to do likewise.

We wish to leave a good and healthy domain to those who will follow after us.

We praise God in and out of our Church.
