

Cyber Safety for Students

The internet is a dangerous place for children.

- *Cyberbullying*
- *Illegal photos*
- *Chat rooms*
- *Enticement of minors*
- *The “dark web”*

Parents! Bring your children to learn:

What should students do to protect themselves on the internet?

What legal trouble can they get into by engaging in these activities?

Diane Joganich, professional educator who teaches Internet Safety at Holy Ghost Prep, will speak to students about these issues in an age-appropriate manner.

Please bring your children to hear the presentation for their age group:

**St. Jude School Cafeteria
323 West Butler Avenue, Chalfont
6:30 to 7:30**

**Monday, April 15: Elementary School children and their parents
Tuesday, April 16: Middle School children and their parents
Wednesday, April 17: High School children and their parents**

Don't miss this important opportunity to protect your children.
