

## What is happening in the Classroom...

I hope that everyone had a great weekend! Our family was blessed enough to be able to walk 2 miles for the Boston Children's Hospital on Sunday. It was a wonderful day and it was great that we were able to walk for such a worthwhile cause.

I want to thank you for sending your child to Assumption School! It means the world to me to be able to teach them each and every day. They are great kids that look out for one another and truly enjoy each other. I look forward to having them again next year!

Even though this is our last week of school, we will still be learning and enjoying 4<sup>th</sup> grade! There will be a final buddy activity to celebrate the graduation of our buddies to first grade, a 4<sup>th</sup> and 5<sup>th</sup> grade activity, and well I heard something about a dunk tank on Friday..... =)

We will be out of uniform "summer dress" for the last two days of school. Please be sure you are wearing summer colors and shorts of appropriate length. These two days are free of charge!

On Wednesday we will have a student council raffle. There are 3 buckets of fun to be raffled off. Bring your dollar or more to purchase a ticket or two.

Nature's Classroom will be in March next year. We will let you know next fall when the meeting will take place.

Our last day of school is Friday, June 14<sup>th</sup> with a 12 PM dismissal and NO AFTERNOON BUS. There is also no afternoon Extended day on June 14<sup>th</sup>. While we all look forward to that day, I still have so much to get done with them!

## Onto Business....

**Religion:** We will begin our last chapter of the year; We respect what God has given us. We will concentrate on the 7<sup>th</sup>, 8<sup>th</sup> and 10<sup>th</sup> commandments. We will also finish up our Commandments booklet.

**Math:** Our study of fun with fractions continues this week. The majority of our work will be done in class, but we will learn how to find a common denominator and make an equivalent fraction to be able to add the fractions together.

**Science:** We had our last test on Tuesday and quickly began our roller coaster building again. The kids did accomplish getting a marble and cup to move 76 cm, but I am challenging them to move that marble as close to 100, without going over! It is fun to listen and watch them work as a group.

**Reading:** The Trumpet of the Swan is moving right along. Louis has learned to read and write and now flies with a slate and chalk and a trumpet. The trumpet is stolen by his father, so that Louis can court Serena. Ask your child each day what Louis is doing to help his father "repay" the music shop.

Ms. Loughlin wrote her last newsletter last week!

## Our Calendar...

June 10<sup>th</sup>: End of year Mass 9 AM (Time Change)

June 13<sup>th</sup>: Summer Dress up Day, Step up day 10:30 AM

June 14<sup>th</sup>: Last Day of School =(, Summer Dress up Day, Dunk Tank =)

Have a great summer break!!! Enjoy the sun and the happiness that comes from not having to wake up and head off to school!!!!

Have a great last week of school!!!

Mrs. Olson
