PREAMBLE

Ever since the Sacred Body of our Crucified Savior was reverently laid in the tomb, there to await the hour of its glorious Easter Resurrection, the Church has been most solicitous to surround with an atmosphere of deep Christian Faith and profound reverence, the interment/entombment of the Catholic faithful who hope to rise with Christ.

From its very beginnings, the Catholic Church has taught that the interment of the dead is a Corporal Work of Mercy. It has set apart and solemnly consecrated those places in which to inter/entomb her faithful departed.

The work of Catholic Cemeteries in their continual witness to the Resurrection stands as an extension of our faith. The Rite of Christian Funeral and Burial is comprised of three parts. The first consists of the gathering the evening before at the Funeral Home, which serves as a way for the family and beloved friends to add a personal touch to the ceremonial mourning process. The second step is the Mass of Christian Burial that celebrates our faith in Christ and the Resurrection. This faith is reflected in the prayers of the Mass, readings, homily, and music. It is especially demonstrated in the prayers of the Final Commendation. The third and final station of the Christian Burial process is the prayers of committal and farewell at the Cemetery. For a Catholic Cemetery, this involves the remains being consigned to consecrated ground, following a rich tradition that existed in the Church for centuries. These cemeteries stand as a public witness to our faith in Christ and His Resurrection; they are also a public witness to the Body of Christ and the Communion of Saints to which we all belong.

The Ministry of Catholic Cemeteries provides for those who choose to use its services as a well kept, dignified place of burial. It also grants a promise of perpetual care, a compassionate office staff to meet the needs of the bereaved, and to provide consistent availability to handle any problems or concerns that may arise after burial.

Due to the great significance and importance of these properties, we must try our very best to properly maintain these blessed grounds, and make certain that the facilities provided are at their very best operating standards.

The following regulations are in effect to insure the sacred character of Catholic Cemeteries in the Diocese of Providence and to establish and maintain good order in accordance with the teaching and traditional practice of the Catholic Church.

of Health Services to assist giving those die without means for a proper, dignified burial. A minimal fee is supplied by DHS and Catholic Cemeteries absorbs the rest of the costs. The primary rules are that it must be a flush marker no larger than two (2) feet wide by one (1) foot deep and must be a minimum of four (4) inches in thickness; there must be a Catholic symbol; and all names of those interred within said grave must be recognized with corresponding dates.

6B

The Funeral Director serves as the agent for the family and is responsible to secure all necessary fees from the family prior to any services being rendered

7

ARRANGEMENTS FOR INTERMENT OR ENTOMBMENT

To make arrangements for an interment or entombment a funeral director must call the Diocesan Cemeteries Office (944-8383) no less than twelve working hours prior to the day of interment or entombment, otherwise a late fee will be exacted to offset the cost of overtime labor.

A Monday interment or entombment must be arranged no later than 2:00 P.M. of the previous Friday, otherwise a Late fee will be exacted to offset the cost of overtime labor.

When death occurs on Saturday or Sunday and a Tuesday interment or entombment is required no late fee will be exacted if interment or entombment arrangements are made with the Diocesan Cemeteries Office no later than 9:30 A.M. on Monday.

A late fee will be exacted for an interment or entombment after 12:00 Noon, on Saturdays. Additional hourly fees will be added when the completion of the interment or entombment is caused to be completed each

hour after 1p.m. on Saturday.

An exception may be made when an earlier Funeral Mass cannot be scheduled due to a full Mass schedule of a parish, with confirmation of the Parish clergy.

All entombments and interments must include an outer container or vault. A name plate of the deceased must be placed on the casket or urn before an interment or entombment takes place.

Interments or entombments are not permitted on New Year's Day, Good Friday, Memorial Day, the Fourth of July, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, Christmas Day, Victory Day and President's Day.

8

CREMATION

Due to the various options available for cemetery disposition, options should be discussed with cemetery administration.

The Church teaches that we place the same respect to cremated remains as those given to full body interments. As soon as possible after the cremation, our remains should be interred or entombed (in whole) within the consecrated grounds of the Catholic Cemeteries. Dividing, scattering or keeping cremated remains at home is not the reverent disposition taught by the church.

9

INTERMENT OR ENTOMBMENT PROCEDURE

All funerals and funeral directors upon entering the cemetery gates shall be under the sole and exclusive direction and supervision of the cemetery representative or his delegate.

A funeral cortege or procession may be prohibited from entering a Diocesan Catholic Cemetery whenever they are escorted or accompanied by regalia or banners of societies, organizations, or lodges which are prohibited by Civil or Ecclesiastical Law. Certain fraternal or lodge services not forbidden by Church Law may be permitted by the director

provided that **permission is obtained at least 24 hours prior to committal.**

The management shall not be liable for any delay of an interment/entombment whenever a protest to the interment or entombment has been made, whenever the rules and regulations have not been complied with, or whenever such rules and regulations shall forbid said interment or entombment. The management reserves the right under such circumstances to request that the remains of the demised remain with the Funeral Director until the interment/entombment rights have been determined. Any protest must be made in writing and filed with the Diocesan Cemeteries Office.

An interment or entombment permit for each funeral as required by the local state, city, or town authority having jurisdiction of the matter and a completed and signed Diocesan Catholic Cemetery Permission Form must be presented to the cemetery representative or his delegate before interment or entombment service is permitted.

A disinterment or disentombment is not permitted without the approval of the director or his delegate.

The management shall exercise due care and caution in making an interment, entombment, disinterment, or disentombment. However, the management will not assume liability for damage to a casket, vault, or liner in rendering this service. The management shall have the right to designate the time and manner in which the interment, entombment, disinterment, or disentombment will be permitted. A labor fee must be paid in full at the Diocesan Cemeteries Office, 80 St. Mary's Drive, before this requested service is rendered.

10

CHAPEL COMMITTAL SERVICE

The committal service (Excluding Maria del Campo) takes place in one of the committal chapels.

After the funeral cortege leaves the parish church it will proceed to the cemetery committal chapel. The casket will be escorted into an assigned chapel and the officiating clergy will conduct the committal service.

As soon as the committal service has concluded, the funeral directors are to direct the bereaved for departure. We

ask that the bereaved be cognizant of this as to not impede subsequently scheduled funerals. Committal Services should not exceed 15-20 minutes.

Upon the bereaved departure, funeral directors are to witness cemetery personnel complete the interment.

Interment will take place immediately after the bereaved have left the chapel.

11 GRAVESITE COMMITTAL SERVICE

Following the chapel committal service and provided the bereaved have previously requested, arranged, and paid for a gravesite interment the funeral director, lead by the cemetery representative, will escort the remains to the gravesite.

If the bereaved have previously requested, and arranged a gravesite interment service bypassing a chapel committal service, the cemetery representative will direct the funeral cortege to the gravesite. The bereaved will remain in their cars while the funeral director submits the interment documents to the cemetery representative.

For **reasons of safety** the **bereaved** are **not permitted near the grave** whenever a **gravesite interment** has **not been requested** since the gravesite area has not been secured and unseen hazards may be present.

In case of inclement weather or for other valid reasons the final committal prayers may be offered in the cemetery committal chapel although such a request or arrangement had not been previously expressed. Cemetery Management reserves the sole right to determine safety in an area for graveside service.

Canopies are not permitted at the gravesite.

To avoid the possibility of a gravesite accident or delay in the cemetery work schedule please observe the following:

At the conclusion of a requested gravesite committal service the bereaved must leave the immediate area of

the gravesite so that the cemetery personnel may have an opportunity to complete the interment.

In order that this work may be performed without incident the understanding and cooperation of the bereaved will be greatly appreciated.

Gravesite interment requires extra labor, time, and equipment therefore, an added gravesite service fee is required.

12 SERVICE FEES

The director shall have the right to assess a service fee and stipulate the time of payment for each interment, disinterment, reinterment, entombment, disentombment, reentombment, removal or transferral, and for any other service requested of the management. All services shall be subject to the supervision of the management.

13 VAULT PROCEDURES AND FEES

Cemetery Vault Fee

A cemetery vault fee, for vaults not supplied by the cemetery, to the Diocesan Catholic Cemeteries may be applied. Fees are addressed in current pricelists.

Sealing of Vaults by Cemetery Laborers or Vault Company

The cemetery laborers prepare the gravesite for interment. They may be required to secure the gravesite with extra planking for a safe interment whenever the vault company is unprepared or unable to do so.

The vault company installs the lowering device, grass carpeting, and any other necessary equipment.

The vault company delivers the vault either to the gravesite or to the cemetery chapel according to the method which has been established by the individual cemetery and the vault company.

After the chapel service the funeral director and the cemetery personnel will deliver the casket to the gravesite

according to the method which has been established and agreed upon with the funeral director, the vault company, and the individual cemetery. At those cemeteries where the casket is serviced or sealed in the vault at the cemetery chapel according to the established method, the cemetery personnel will deliver and lower the casket and vault into the grave.

When a vault company delivers an interment vault to the gravesite and seals the casket therein, they may do so either above ground or after the vault has been lowered into the grave. The vault company must use their lowering device whenever they lower a vault into a grave.

Interment Vault and Gravesite Interment

If a vault sealing has been requested the vault company will plank the grave and install the lowering device, grass carpeting, and other necessary rigging for their operation. If a vault company sealing has not been requested, the cemetery personnel will plank the grave, install the grass carpeting and other necessary equipment, and lower the vault and casket into the grave. When either of these interment arrangements occur, **the funeral director will deliver the casket to the grave after the chapel committal service.**

PLEASE NOTE:

Cemeteries may experience unforeseen problems which may require an exemption from the above stated procedure regulations. Funeral directors should consult with the cemetery representative if such problems occur.
