

Dear Parents,

I hope your summer has begun happily! I am sending you the supplies list for next year as well as a summer packet. In this packet I have included a list of website suggestions, skills to practice and a summer skills bingo game. My hope is that each student spends time this summer reviewing what they have learned and fostering new skills and a love of learning. Please encourage your student and provide opportunities to use the skills they are learning. I look forward to next year and seeing who wins at BINGO!

God Bless you

Amy Skrzyniarz

Math skills- multiplication tables from 1-12

Reading an analog clock

Measure inches, feet, yards, centimeters, meters

Count, add, and subtract money

Adding and subtracting fractions

Geography- simple map reading, north, south, east, west

State capitals

Science- Phases of the moon

Always be thinking like a scientist. Ask yourself ,Why?, when you see something interesting!
