Principal's Report

Becky Reits

- Grandparents Day went very today.
- Perpetual Rosary throughout the month of October where each class takes a decade of the rosary each hour of the day, with plans for an All School Rosary
- The school has decided to pray with special concern for the victims of natural disasters
- All day development in service for the teachers in September
- Last week we had student led conferences, sharing the MAP results for the students to the parents. MAP testing are not to be considered a standardized test to compare between students, but rather as a validated assessment tool for seeing your child's own growth.
- The school marketing postcard should be ready for mailing by the end of next week
- There is a Self Evaluation for Governing Bodies which we can use for goal setting and development of the LAC, we will begin using this each month

Advisory Committee Discussion

Continued Concern regarding Middle School NWEA MAP

Sue discussed her concerns about negativity, and asked the LAC members to be a positive voice for the school and its mission.

LAC Corner of Notify Me

Sue will draft a small paragraph to announce to the community monthly of the activity of the LAC to help foster the positive culture

Facility Walkthrough

Boosters has a large fund that needs to be spent. Sue will arrange this with Becky.

Blueprints of School for EMS use

Kevin had previously sought out quotes for renderings of the schools blueprints with specific information of exits and location of children to provide to emergency response personnel for disaster management planning. This may be one area where the Boosters Clubs funds may be of use.

Next Meeting

Going forward we will be meeting at 5:30. Next Meeting will be Thursday, November 2nd

Adjournment

The meeting was adjourned at 6:35pm
