

## Immunization Information

New York State Public Health Law, Section 2164 mandates that schools shall not permit a child to be admitted unless the parent provides the school with a certificate of immunization or proof from a physician, nurse practitioner or physician's assistant that the child is in the process of receiving the required immunizations.

### Required immunizations are for the 2012 -2013 School Year

Vaccines	School (K-12)
Diphtheria Toxoid – Containing Vaccine	3 doses (NYC – 4 doses –required for kindergarten only)
Tetanus Toxoid-Containing Vaccine & Pertussis Vaccine (DTaP, DTP)	3 doses if born on or after 1/1/2005
Tetanus, Diphtheria, and Pertussis Booster (Tdap)	Born on or after 1/1/1994 & enrolling in grades 6-10 for the 2012-2013 school year 1 dose
Polio (IPV or OPV)	3 doses
Hepatitis B	3 doses
Measles, Mumps and Rubella (MMR)	2 doses of measles-containing vaccine and 1 dose each of mumps and rubella (preferably as MMR)
Varicella (Chickenpox)	Born on or after 1/1/1998 or born on or after 1/1/94 & enrolling in grades 6 – 12 1 dose
Haemophilus Influenzae Type b (Hib)	Not applicable
Pneumococcal Conjugate Vaccine (PCV)	Not applicable

All of the above immunizations must be documented by your health care provider, health department where the child received the immunizations, or must be from an official copy of the immunization record from the child's previous school (a copy of the original immunization record from the healthcare provider – not a copy of the school health record). A NYSIIS/NYCIR record is also acceptable.

All immunizations must specify that **exact date** each immunization was administered. Your child will not be permitted to attend school without the necessary verification of immunizations.

If you have further questions or concerns about immunizations, please feel free to contact the school health office 473-1896.
