We would like to enlist your support of your son or daughter to perform this responsibility. Please sign below if you accept support for the training that will need to occur to become an altar server. Your child may need reminding to get a replacement if they cannot serve when scheduled. We ask that you review the Altar Servers' Booklet with your child, and help them to understand their responsibilities. It is advisable that your child be at least in 4th grade, unless you feel that they are mature enough for this responsibility. If you notice that your child is misbehaving while serving (talking, giggling, etc.) we ask that you speak with your child after Mass. Thank you for your support!
