

Parents, if you are looking for tutoring services over the summer and during the coming school year, there are a number of tutors at the school whom you can contact for more information. Your child's teacher can help you choose the resource that best suits your child. My contact information is provided below. *Mrs. Lilian Franklin*

Reading

Tutoring Services in Reading

- Informal diagnostic testing to identify reading strengths and weaknesses
- Leveled reading materials by ability and grade level
- Online access to leveled reading skill practice for phonics and comprehension
- Formation of good reading habits
- Develop strategies for difficult text
- Help with homework including related subjects that require reading and comprehension of text

Benefits of Tutoring

- Individual attention
- Improved work habits
- Encourages positive thinking
- Student and parent gain valuable feedback
- Tutoring the whole child with the perspective of faith in God and love for family and others

Rate Information: Tutoring typically involves one on one work with the tutor, but can include small group sessions depending on circumstances and parent preference. Rates depend on length of session.

Tutoring Services in Mathematics

- Informal testing to find skill gaps
- Leveled math materials by ability and grade level
- Teaching methods and games to improve memory
- Help with homework including subjects that involve mathematical concepts
