Quick Question

Explaining the Holy Trinity in plain English.

The Trinity is one of the most difficult realities to comprehend but it might be a helpful start to recognize the distinction between a “being” and a “person.”

God is one Being (the one and only *divine* Being). This divine Being exists as three Persons (Father, Son, and Holy Spirit). This is unusual to us because each *human* being is only one person and it might seem that every being has to be one person: one being = one person.

But that's simply not always the case. For example, a dog is a being but is not a person. A tree is a being but is not a person. In these cases, one being = zero persons. On the other hand, an angel is a being and is a person. In their case, angelic beings are similar to human beings: one being = one person.

Once you recognize that not every being is always exactly one person, it might be easier to grasp God's unique reality, the Trinity: one Being = three Persons.
