We collected e-Waste from your firm on the above date. Congratulations! Included in that pick up were LCD's, printers, keyboards, mice, phones, laptops, batteries, speakers, wire, laptop bags and systems.

A total weight was **892 lbs**

**GO GREEN!!**

Per our recycle standards, all hard drives will be destroyed by the method of drilling, crushing or wiping. All information will be destroyed by the methods to DOD specifications. We commend you for contributing to a cleaner, greener planet!

*This certifies that Computer Recyclers of Michigan will keep all electronic scrap out of any land fill and process same by teardown to basic plastic, metals, wire, etc. The processed material will generate an income stream to allow the firm to continue to offer free pick up of e-Waste from our service area. Your information will be destroyed and your product will not be retailed to others. We look forward to supporting our many recycle customers, which includes Michigan Green Schools, non-profits and commercial customers without fees for this planet saving, green earth initiative.*
