Saxon Math Program Online

Students will be given an online passcode for resources available online. We encourage you to use the online textbook and resources!

After-school Math Tutoring

The middle school math department encourages students to attend math tutoring with ANY available after-school tutor. Please check school website for days/times/teachers who will be tutoring grades 6-8 math..

Attendance/Participation:

You are expected to be prepared, participate in group discussions, work together on activities, answer questions posed by the teacher, present solutions to homework problems to the class, take notes on all activities, and follow general directions.

It is very important that you attend class daily. You will need to be up-to-date with the material at all times since most of the topics build upon each other. If you are absent, it is your responsibility to find out what you have missed.

Homework/Classwork:

Expect homework on a daily basis. For the most part, homework is due the day after it is assigned, and must be completed prior to the start of class. Some assignments will be scored in class based on effort and completion, while others will be collected and scored based on accuracy. All problems should be adequately attempted and evidence for your efforts must be shown on paper. Students may receive partial credit for incomplete homework. You must always show all your work.

Agenda Sheets

All homework assignments will be recorded on an agenda sheet kept in student binder. Following each Unit Test, the agenda and that unit's homework will be collected. All homework grades will be recorded in PowerSchool at that time, work from all homework assignments will be re-evaluated and comments recorded on the agenda sheet prior to being returned.

We have read this course syllabus and understand the expectations for this class.
