

## Lego Club by Frances Popik, published on 03/29/2019

Lego club is one of the many activities available to students at St. Charles Borromeo School. Mrs. Salasek, Mrs. Ungvarsky and Mrs. Zickes moderate Lego club, which has been a Saint Charles staple for about six years. First grader Jett says he joined Lego club because “he likes to build Legos and he likes to play with them.” When asked the best thing about Lego club, Jett replied, “You can make stuff, you can build anything you want”, and that the best things he has built were “a house, a car, a tower and a studio.” He said the best things he has seen anyone build were “A car, a huge Lego cube, and a person.”

Second grader Jackson said the best things he has ever seen built were “A movie theater, a person, and a car.” Wow! Those are some creative kids! Lego Club meets on Wednesdays once a month in the library, and is open to any first or second grader. Currently there are 21 kids in the first grade and 24 kids in the second grade who participate. That’s a lot of Lego construction! Keep developing those creative skills, Lego Club!
