

# How do I leave a class via text?

Natalie Hartkopf  
Customer Support

To block all text messages from Remind, reply STOP to 81010.

To be removed from only one class, reply:

@leave @code

Code is: @mrsmatting

to 81010.

If, for example, the code for the class you no longer wanted to be in was "math," you would text: @leave @math. (Don't forget the space between the word 'leave' and the class code).

You can also retrieve these instructions by texting ' help ' to 81010 at anytime.

*If you accidentally text STOP, but didn't want to leave all of your classes, [contact us](#) and we'll be happy to restore your classes.*
