Question of the Week for the 10th Sunday in Ordinary Time:

Question for Children: Why do our parents and teachers have rules we need to follow? Why do you think God has rules for us to follow?

Question for Youth: God has created us with free will, the freedom to follow or ignore God's will for us. How can you discover God's will for you?

Question for Adults: We humans are vulnerable to sin. Our sins most often lead to shame, mistrust, and blaming. How can following God's will free you from these destructive actions?

St. Michael Catholic Church
Bradford, Indiana
**Campaign to Maintain
2018**

2 Corinthians 9:7

Each one must give as he has decided in his heart, not reluctantly or under compulsion, for God loves a cheerful giver.

Since its founding in 1835, St. Michael Church has been blessed with parishioners of remarkable generosity. This small country church has flourished for one hundred and eighty three years thanks to a strong tradition of unselfish giving that continues to this day.

It would be wonderful if church buildings and grounds, once established, required no further effort or expenditure. Sadly, the laws of physics prevail. Things wear out. Having built something, we must expend additional energy and resources to maintain it if we want it to last. This isn't as exciting as creating something totally new, but it is necessary.

The Church Roof

The roof of our sanctuary and narthex is over 30 years old. It is the original roof. It has been sealed, patched and plugged, but the battle to keep us dry while we worship is now being lost. You may have noticed stains on the ceiling, white efflorescence on the interior brick (a sign that water is seeping behind those bricks), and even puddles on the floor after particularly heavy rainfalls. There are some areas where the moisture has caused the textured ceiling paint to peel away from the underlying "not-so-drywall."

Aged membrane roof (white) and flat roof over narthex.

One of many leaks in narthex roof

Fr. Aaron and members of St. Michael's Building Maintenance Committee have, with the help of a competent roofer and an architect, closely examined the options for a long-term solution to this problem. The consensus is that the best and the most aesthetic solution is to replace our current roof with a standing seam metal roof that will have a forty-year warranty. The roof will be redesigned to eliminate all areas of flat roof. These areas, where water just pools, account for the majority of our problems.

Our future church with new roof and window!

Creating a slope over all areas of the roof will require some modest revisions of the brickwork around the front entrance. Revising this brickwork will allow the opportunity to incorporate into the building two stained-glass windows that were salvaged from the old church. Use of these windows will celebrate the history of our parish and honor the parents and grandparents who contributed to the previous

church.

Pray for a generous spirit. Pledge what you can.

If you have been richly blessed, let your gift reflect this. Of course this should be prudently balanced against the genuine needs of your family. But remember the Lord was most pleased with the widow's mite. If times are hard for you and you can afford very little, the Lord has told us he values your small gift greatly! The building maintenance committee does as well, and we pledge not to squander it.

The estimate for the cost of this project is \$300,000-325,000. This is only an estimate. Formal bids from builders will be solicited when sufficient money is in the church's account.

Any questions or comments, please contact Mark Petrik by email at mpetrik@aol.com, or text at 502-558-2663, or land line phone at 812-364-1241.
