Please list any medications your child uses on a regular basis:

Please list any allergies your child may have that require special attention:

Please complete this information and make your payment to St. Anne School. Write "Summer Camp" in the memo line. You may send your payment and information with your child, or you may drop off your forms at the office.

St. Anne's 2019 **Imagination Station** Summer Enrichment Program provides excellent opportunities for students to reinforce skills and knowledge learned during the regular school year. Our camp offers diverse classes for language arts, science, technology, engineering, art, and mathematics. We will provide students with an environment that is both stimulating and encouraging, while arousing curiosity, creativity, imagination and the use of problem-solving skills.

PAYMENT INSTRUCTIONS

Early Bird Registration - \$250.00,
if payment is received by May 3, 2019.

Late Registration - \$275.00,
if payment is received after May 3, 2019.

Families with multiple children will receive a \$25.00 discount per family.

The registration **DEADLINE** is Thursday, May 16, 2019. Enrollment may close earlier than May 16th if capacity is reached. All fees are non-refundable.

PLEASE NOTE:

- * In order to participate, child must be an **enrolled St. Anne student** entering Kinder through 4th grade.
- * We will not accept drop-ins.
- * **Lunch and snacks will be provided.**
- * Classes will be from **8:00 a.m. to 3:00 p.m.**
- * Children not picked up promptly at 3:00 p.m. will be charged \$5.00 per 5-minute increment.
- * Disruptive behavior will not be tolerated. Parents will be required to come to school, and get their child.
- * **Train conductor attire is encouraged!**

St. Anne's

**Summer
Enrichment
Program**

**Tuesday, May 28, 2019
through
Friday, May 31, 2019**

8:00 a.m. – 3:00 p.m.

All classes will be taught by experienced conductors:

Mrs. Patti Clay
Ms. Cathy Jordan
Ms. Roberta Kellner
Mrs. Michele Broussard
Mrs. Leah Wilcox

Learn, discover and experiment aboard the Science Express! We will use the scientific method and perform daily experiments to explore the fascinating world around us! Be ready to become a world traveler in the lands of Physics, Chemistry and Engineering by completing activities such as candy experiments, color tests, fizzy demonstrations, structural challenges, and investigating the world of slime!

... led by Leah Wilcox

T is for Technology

Come with us as we embark on an extraordinary adventure into the world of STEAM!!! Our projects are sure to keep young scientists engaged, learning, and inspired for their STEAM-filled future! We will learn about the ASCII Binary Alphabet Code, and build an experiment with Spy Decoders. Our future scientists will unleash their creativity and enjoy teamwork, problem solving, and curiosity.

... led by Cathy Jordan

STEAM is an educational approach to learning that uses **Science**, **Technology**, **Engineering**, the **Arts**, and **Mathematics** as access points for guiding student inquiry, dialogue, and critical thinking. During our Summer Program, our young engineers will be encouraged to take thoughtful risks, engage in experiential learning, persist in problem-solving, embrace collaboration, and work through the creative process. So, grab your ticket and hop on board! Don't miss the train at the **Imagination Station** here at St. Anne Catholic School!

E is for Engineering

Join us as we discover our engineering skills! We will build waterproof shelters out of everyday supplies and experiment with ways to increase and decrease the speed at which a toy can travel. The week will be filled with fun and exciting activities to discover the skills of our future engineers!

... led by Michele Broussard

A is for Art

Art is for Happy Accidents! Learn about local, contemporary artists. Enjoy watercolors, drawing, landscapes, puppets, mixed media, crafts, etc. Lessons will be augmented with art-related story time and some outdoor activities.

... led by Patti Clay

M is for Mathematics

All aboard the STEAM train! Students will engage in fun math exercises to master functional math concepts as well as demonstrate their knowledge of number sense, estimating and comparing. Full steam ahead as we read, create, and craft our way to a better understanding of numbers.

... led by Roberta Kellner
