

2018-2019 Grant Application Additional Instructions:

Please download the application, save it and then open it in Adobe Reader only. There have been reports of some agencies having difficulty with the text box on Page 4 which asks to specifically describe how the organization will use the requested funds. If a text box is not able to be filled in, please try to copy and paste. If that does not work it is acceptable to attach a separate page with the description asked for on Page 4. Be certain that the text attached is single spaced and will fit into the allotted space on Page 4 of the application.
