

5th Grade Happenings

January 9, 2019

Science Fair: New Due Dates

I assigned new dates for the science fair paper and board. The student wrote these dates down on their contract. They have their contracts. **Both the paper and the board will be due on January 17th or 18th.** I will accept them on either date. Students may turn in their paper and board before the due date.

New Club

St. Paul has a new electrical/mechanic club. It will take place after school on Tuesdays until 4:45. Contact the office for more information or a permission slip.

NWEA Testing

NWEA testing will be taking place the week of January 14th and 21st. My plan is to give the tests during the morning hours. If possible, I would like to give all 4 during the week of the 14th.

Save the Date: March 1

The 5th graders will be attending Lansing Catholic 5th Grade Activity Day. More information to come.

Math Facts

Our current math chapter is focusing on multiplication. In order for students to do well, they need to know their math facts. If your child seems to struggle with his or her math facts, they should be working on them every night. They can go online and work on them or they can use flashcards.

Science Fair Attendance

The science fair will take place on Sunday, January 27th. After Mass we will have a luncheon in honor of our St. Paul families. Following the luncheon, we will have the science fair. My 5th graders are expected to attend. They will receive a participation grade. If a student is unable to attend, he or she must have a note with a legitimate excuse saying why he or she could not attend. Not attending and not bringing in a note with a legitimate excuse will result in a zero for the participation portion of the grade.

While at the science fair, students do not have to stand by their board. They may walk around and look at other projects.

Correction

Mass on Sunday, January 27th, will be at 11:00 am, NOT at 11:30 am like it was posted on the January calendar.

Power School Grades

Please make sure you are checking your child's grades. Hopefully the new link works for you. If you still have trouble logging on after using the new link, please contact Mrs. Heatwole.
