

Plan the organization of your presentation in **thirty-second increments**. What topic(s) or point(s) will you discuss? What will you show to the class (which part of your model/art/demo/slide)?

In the first 30-seconds you should:

- explain what the *focus* of your project is and *why* you chose that focus
- *where* you gathered information and *how* you developed/constructed the project

In the remaining 1:30 -2:30, please share:

- what you learned (facts/information) *Include vocabulary words and key points*
- what you found most interesting/cool/exciting (opinion)

Use the storyboard on the back to outline your TWO-MINUTE presentation. The left box includes basically **what you will say** (only important words or OUTLINE) and draw a BASIC SKETCH **what we will observing** at that time (slide(s)/object/etc.).

- *Complete your artifact/project ASAP so that you can focus on your presentation.*
- *Consider how you will make your presentation interesting to seventh graders.*
- *How can you interact with students?*
- *How will you use your time?*

*Remember that your final project is due \_\_\_\_\_.*

Questions about the project should be asked in class this week or can be emailed to Mrs. Kim-Villano at [skimvillano@stpius.net](mailto:skimvillano@stpius.net).

Medieval Project Presentation rubric:

- Your project is historically accurate, showing thorough research.
- You show creativity with expression, materials, and design.
- Your project shows effort, and is presented in excellent condition.
- Your presentation is about 2 minutes in length.
- Your presentation is clearly presented and understood.

**\*\*\*\*\*AFTER PRESENTATION**

Complete a reflection form detailing *what you liked or did not like* about MERP, any **challenges** you may have encountered, suggestions for future MERP and impression of other projects. Due the **next day** after you present to the class!
